

Plan of Glasgow –

The image shows a cityscape of different styles of housing with the River Clyde running through the centre. The north and south ends of the boundary each show a large impressive civic building.

Text on report

Corporation of the City of Glasgow

First Planning Report

Folio – No.6

Inner Core of the City

Key

1. Residential
2. General Business
3. Industrial (Light)
4. Civic
5. Theatre
6. Proposed North Station
7. Proposed South Station

The purpose of this drawing is to give a general impression only of the manner in which the inner core of the City might be developed. The lines of the roads are not strictly in accordance with the proposed lay-out – notably the Southmost portion of the ring road.

Robert Bruce B.Sc Mast.C.E. Mast. M & Cy. E. Master of Works and City Engineer, Office of Public Works, City Chambers, Glasgow.
