

# Moving MarketPlaces Closing Workshop

Insights from a European  
research project on public  
markets from a mobility  
perspective

Four universities in four countries,  
9 team members, 3 years of  
ethnographic research on outdoor  
markets, and all of this during  
Covid-19.

What did we learn about markets  
as public space, which academic  
contributions did we make and  
which were the most surprising  
findings?

Come and find out during our  
online closing event!

20 May 2022

12.15 pm – 14 pm (CET)
